## Invitation to the ROMANIAN ACADEMY - BUCHAREST

On behalf of the Organizing Committee we are pleased to invite you as an exhibitor and/or sponsor at the 17<sup>th</sup> International Conference of Physical Chemistry – **ROMPHYSCHEM-17**, held on September 25-27, 2023, in Bucharest, Romania.

**International Conference of Physical Chemistry - ROMPHYSCHEM-17** is organized by the "Ilie Murgulescu" Institute of Physical Chemistry, Department of Analytical & Physical Chemistry of Bucharest University, and ALPHA Association.

The Conference will be hosted by the Romanian Academy and Romanian Academy Library, Calea Victoriei 125, Bucharest.

Since 2006 **ROMPHYSCHEM** is an important international event attended regularly by over 300 participants from Romania and abroad, gathering top scientists and professors, engineers and manufacturers, members of the academic communities as well as students and junior researchers in an extended debate of main fundamental and applied aspects of physical chemistry. Major high priority fields within UE (Horizon Europe) and SNCISI 2022-2027 (National Strategy for Research, Innovation and Smart Specialization) are approached, with emphasis on frontier research: health, food, agriculture and biotechnologies, nanosciences and nanotechnologies, energy, environment protection. The 350 registered contributions, presented as plenary and keynote lectures and posters, are grouped in seven sections and three satellite workshops.

**Section 1: Theoretical chemistry. Molecular spectroscopy.**

**Section 2: Chemical kinetics and thermodynamics.**

**Section 3: Catalysis and Chemical Engineering.**

**Section 4: Electrochemistry. Corrosion. Ionic liquids.**

**Section 5: Advanced materials science.**

**Section 6: Biophysical and pharmaceutical physical chemistry.**

**Section 7: Green chemistry and environmental engineering.**

**Workshop 8: Advanced ellipsometric and spectroscopic techniques: applications in environment, energy and sensing.**

**Workshop 9: Sol-gel science and applications.**

**Workshop 10: Physical chemistry of soft materials.**

The Conference provides an ideal framework for discussion, expression of different viewpoints, experience exchange and onset of bi- and multi-lateral cooperation. The generous space of the Academy Library "Heliade" Hall and its surroundings offers a perfect ambient for companies to present or advertise their products via exhibitions and/or specific presentations. The heart-of-the-city location and media coverage of this event constitute a major component concerning sponsors visibility.

We are looking forward to your presence in Bucharest
